

Contract Law

When drafting contracts, we strive to avoid any conflicts from the very outset, and at the same time to fully protect our clients' interests in the event of a dispute with the contracting party. During contract negotiations, we implement our clients' vision efficiently while ensuring compliance with the law.

We advise our clients on drafting contracts in all key areas and branches of commercial law. Our attorneys offer advice on issues including sale and purchase agreements, supply agreements, employment contracts, developing complicated contractual structures, adapting licence and franchise agreements in compliance with Ukrainian law, customs clearance of goods, execution or enforcement of contracts. We offer innovative and value-added solutions while developing distribution systems in Ukraine.
