Ukrainian labour law establishes a direct peremptory rule allowing foreign nationals or stateless persons to be employed in Ukraine only subject to a work permit, which is also the basis for obtaining an appropriate type of Ukrainian visa and a temporary residence permit in Ukraine effective for the period of validity of a work permit.

General provisions

The first thing to note is that it is not a foreign national but an employer (company) who has to apply for a work permit. A work permit is issued to a particular person for a particular staff position (workplace) and cannot be transferred to a third party.

Therefore, a work permit in Ukraine is limited (it does not grant an unlimited access to the Ukrainian labour market) and tied to a particular employer.

Work permits may be issued for shorter periods to be indicated in the employer's application.
