

/\* Add your JavaScript code here.

If you are using the jQuery library, then don't forget to wrap your code inside jQuery.ready() as follows:

--

If you want to link a JavaScript file that resides on another server (similar to ), then please use the "Add HTML Code" page, as this is a HTML code that links a JavaScript file.

End of comment \*/

```
jQuery(document).ready(function( $ ){  
  $('attachment-single-mobile').attr('src',$('attachment-single-mobile').attr('data-src'))  
});
```
